Python, C, ASM HTML, PHP, CSS JavaScript, node.js Matlab, Latex Verilog, VHDL

## platforms

6LoWPAN, BLE CC25XX, MSP430 mbed, Arduino Beaglebone, rPi 3D printing

#### software

Contiki, TinyOS Altium, Eagle Autocad, IAR

#### interests

I'm a maker at heart and have a strong background in wireless sensor networks and computer science. My interests go out to electronic hardware design, research and (rapid) prototyping. I'm looking for more experience in supply chain logistics for consumer products. In all I'm a solution driven person, eager to learn and feel comfortable in a fast changing environment.

## education

since 2010

Ph.D. candidate in the engineering sciences

Monitoring Noise Pollution with Microphone Array-Based Wireless Sensor

Networks - Expected begin 2015

M.Sc. industrial engineering - distinction

Majoring in electronics - ICT

WUB, Vrije Universiteit Brussel

VUB, Vrije Universiteit Brussel

Array-Based Wireless Sensor

Networks - Expected begin 2015

EhB, Erasmus Hogeschool Brussel

Wireless link estimation in Contiki based sensor networks in collaboration with Hanoi University of Technology - Vietnam

2004–2008 **B.Sc.** industrial engineering - distinction EhB, Erasmus Hogeschool Brussel Majoring in electronics - ICT

## experience

**beyond.io, Antwerp, Belgium**PCB design, firmware development and production consulting for diverse prototypes.

R&D Engineer

1-12 2011 **Zaffer BVBA, Zaventem, Belgium**Development and production start-up of a wireless window-shutter control system, including electronic design of several remote controls and motors. Development of firmware and software for smart remote controls and their wireless network.

2010 - 2014 **FabLaBXL, Brussels, Belgium**Start up and daily operations of an open workshop for students, artists and engineers where digital fabrication tools can be used freely to produce small scale products or projects.

2007 - 2012 **Culture Club, Ghent, Belgium**Light technician
Head technician, light director during events and evenings. Technical
maintenance of light- sound and video-material. Technical advisor for events.

O7 2007 **Right Management Consultants, Brussels, Belgium** IT Consultant summer job Revising and adjusting company intranet site and accompanying databases.

07-08 2004/5 **Thomson (Grass Valley), Brussels, Belgium**Audio-visual technician summer job
Assistance in the deployment of diverse audio-visual installations in radio and
TV studios (European commission, Flemish Parliament, ...).

2004 - 2014 **Freelance, Europe**Light-, sound- and video technician Providing a full technical framework for events, shows, parties, performances, conferences, theater and live events. Designing of light-, sound-, video-, and power-plans. Programming and operating of diverse lighting- and video desks.
